Kosciuszko Bridge over Newton Creek
\$900 Million in Construction

Green Street Parking Garage - Newark
\$30 Million in Construction

About Us:

The Council of Black Architecture and Engineering Companies (CBAEC) is a consortium of highly qualified architecture and engineering firms. We provide expert professional planning, assessment, design, program/construction management, and construction inspection services for both private and public sector clients. Our organization is currently composed of over 20 architecture and engineering firms with offices in the Greater New York/New Jersey Metropolitan Area and across the country.

Client Benefits:

- CBAEC provides professional resources with decades of experience who possess intimate knowledge of local, state, and federal codes and agency guidelines. Our team is capable of providing innovative 21st century solutions that reduce costs and increase revenue.
- With an expansive local footprint consisting of firms located throughout New York and New Jersey, CBAEC can respond promptly to your urgent emergency needs.
- We will prioritize your project and dedicate our most talented and experienced staff for its execution.
- As a cross-functional team, we have the ability to significantly expedite design and production of drawings and specifications, reduce project execution time, and save project budget.

What Can We Do?

- CBAEC is a team of over 500 architects, engineers, designers, construction managers, and surveyors ready to help you achieve your project goals.
- Collectively we have worked with every major agency in the New York and New Jersey area and many others across the country including: PANYNJ, NYSDOT, MTA, NYCDEP, NJSDA, NYSTA, SCA, DASNY, NYCDOT, NYSOGS, and NYCDDC.
- Our firms have provided design and construction management/inspection services for billions of dollars in construction in the Tri-State Region and beyond.

We look forward to executing your vision for this region.
